*Master Chef and Baker, George Geary, Updates and Expands His Best-Selling Cookbook with The Cheesecake Bible Second Edition*

*“I get asked frequently how many cheesecakes I have made in my career. Honestly, that is such a difficult question to answer. In the 1980s I would make seven cheesecakes each week for the Emmy hit show *The Golden Girls*. I made 250 to 350 a day in the 10 years that I worked as a pastry chef for the Walt Disney Company at Disneyland in the 1980s and 1990s — that equals 1.2 million cheesecakes just during that time. I could probably be in the Guinness World Records!*”

*Since my days at Disney, not a week goes by without my teaching and baking cheesecakes. And every year on National Cheesecake Day (July 30), I bring my knowledge of the creamy dessert to a morning news segment in San Diego or a national TV show.*

*My first cookbook, 125 Best Cheesecake Recipes, came out in 2002. The book was quite popular, and I knew I had more to say, so in 2008 I wrote The Cheesecake Bible, which was an expanded version of my first book with over 200 recipes. (It was also translated into Italian.) Today, after 16 years, I give you The Cheesecake Bible: 300 Sweet and Savory Recipes for Cakes and More. I guess it’s true when I’m referred to as the ‘Cheesecake King.’”*
